Dear James,

Kieve Wavus deeply appreciates your thoughtful gift of \$100 to our **2020 Annual Fund**. In “normal” times, your gift would help us promote character development in our campers and students while extending kindness and respect to people struggling with cancer, to veterans returning from war, and to local children learning to make their way in this world. During these COVID-19 times when we cannot bring people together, your gift also helps us prepare and deliver meals for the elderly and others in our community who desperately need our help merely to survive. Kieve Wavus has been here for nearly 100 years but never have we been embraced so completely and unconditionally by the local folks as now.

Your gift, and the spirit behind it, shows that you share our belief in the potential of every child and the love for our neighbors in this very special corner of the world. Your support allows us to continue delivering life-changing experiences on and around Damariscotta Lake, one of the most beautiful, calming, and inspirational places on the planet. Thousands of children and the adults who support them, most of whom dream of coming to a place like this but could never afford it, grow stronger and happier here because of generous, loving people like you. Thank you for helping us invest in our future.

As we get ready to celebrate our 100th anniversary we’ve gone out on the road to capture many alumni interviews and created the KWEST podcast. You can find these entertaining treasures by subscribing to Kieve Wavus Storytellers wherever you listen to podcasts.

Please retain this letter as a receipt for tax purposes. Kieve Wavus provided no goods or services in exchange for this gift.

Sincerely yours,

Henry R. Kennedy
Executive Director
